

OPERA *meets* BROADWAY

MONDAY 10AM | FEBRUARY 9, 2026

VALERO SENSORY FRIENDLY PERFORMANCE

Sensory Friendly performances address specific aspects of theatre productions, taking into account all five senses and the factors that may make live performances overwhelming. We strive to make the audience experience more welcoming and comfortable to patrons with sensory sensitivities or other needs.

Step into a one-of-a-kind student matinee where opera's soaring arias meet Broadway's showstopping hits! Professional artists from OPERA San Antonio bring both traditions to life in a high-energy performance that is fun, accessible, and educational. With TEKS connections built in, this program introduces students to the power of live performance, the thrill of storytelling through music, and the magic that unites two art forms that have shaped music history—all in one unforgettable event.
